PARKWAY CAPITAL OVERVIEW

Since 2000, Parkway Capital has had a history of investing alongside management, both funded and independent equity sponsors, and family offices, providing a flexible junior capital alternative for lower middle market companies. Having joined forces with the team at Calvert Street Capital Partners in 2019, Parkway has an experienced, mezzanine-focused investment group that will continue their collective legacy of making mezzanine debt and minority equity investments in lower middle market companies¹. These investment professionals have collectively invested more than \$400 million of capital across 60+ portfolio companies.

INVESTMENT PHILOSOPHY

Individual investments are structured based on the needs of each portfolio company. Parkway invests in a broad range of industries including manufacturing, distribution, consumer products, business and industrial services, and healthcare. We target opportunities where our investment will help to pursue growth opportunities, enable balance sheet recapitalizations, and / or facilitate ownership transfers.
